Experience

Andrew is an operations consultant at Ruck-Shockey Associates, Inc., an S-Corporation formed in 1997. He has over 15 years of operational and project experience including operational reviews & assessment studies; conducting in depth hospital studies, both systems and stand alone, service integration of environmental services. Oversight reviews and implementation processes with attention to detail are Andrew's skill set.

He has knowledge of environmental service and food service management, including the management of daily operations, quality control, training, regulatory compliance, procurement, budgeting and policy implementation. Andrew is experienced in conducting operational reviews and assessing supply and logistics as well as daily operations, making appropriate recommendations, and providing implementation plans. Andrew is qualified in operations including the Lawson supply management program and understands supply chain operations from sourcing to dock receiving and internal distribution. He has a keen eye for quality logistical outcomes. Andrew is a proven performer in providing customers with solutions to logistical issues that allow them to make good business decisions with positive results.
