Registered Dietitian
ServSafe® Certified

Summary

Anita has more than thirty years of experience in food service management, primarily in the healthcare industry, with brief periods of employment in both colleges/universities and business/industry. She has managed services with up to a \$7.4 million operating budget and as many as 120 employees.

Anita is dedicated to customer service, having provided uninterrupted food and nutrition services during multiple strikes (up to nine weeks in length) by unionized healthcare workers in San Francisco. In addition, she managed 24-hour meal service for hundreds of defense personnel, as well as hospital staff, physicians and visitors, during a period of intense civil unrest in Los Angeles.

Anita most recently demonstrated ongoing support for the merge of two specialty acute care hospitals, to include presiding over a Transition Planning Team, supervising the associated major kitchen construction and planning for the return of tray passing to Nutrition and Food Services.
