Experience

Victoria is an Independent Consultant with over 25 years of healthcare operations experience and an additional 20 years in restaurant management. She has had a focus in-patient and retail food service, clinical nutrition, environmental services and other support services. Victoria has a proven track record of achieving results in service, quality, strategic objective, employee engagement as well as customer and patient satisfaction, managed multiple departments with multi-million dollar budgets, implemented room service systems and operations. Victoria's breadth and depth of experience over restaurants, long term care, acute care hospitals and hospital systems leads her to have a knowledge base that guarantees success.
